

## Frequently Asked Questions:

### **Whom may I contact if I have a question or a concern during the construction of the project?**

The Construction Manager representing the City of Hudson will be able to be reached on the **Project Hotline** at **715-531-2786**. There will also be project updates with information on the project web page at <http://www.ci.hudson.wi.us> – Vine Street Construction.

### **What are the working hours for the contractor and will the contractor be working weekends?**

The Contractor's working hours will be 7:00 AM to 7:00 PM, Monday – Friday, however, at times Saturday work may occur when necessary. No work is allowed on Sundays or Holidays.

### **Will Vine Street be closed to traffic during the Construction Project?**

Yes, Vine Street will be closed and traffic detouring will be required. Traffic Detouring information will be provided to Residents at the Neighborhood Meeting, future project mailings, and on the City Web Site.

### **Will I have access to my street and driveway?**

For the majority of the construction project, residents will have access to their street and driveway. There will be periods of time during the underground utility installations where residents will not have access, however, they will be notified in advance of any access restrictions. Parking on the side streets is encouraged to avoid delays during the day. When concrete work is performed, curb and gutter and concrete driveway replacement, a 5-day minimum curing time with no disturbance will be required from the time of placement. This will restrict access, however, residents will be allowed to park directly in front of their homes from 7:00 PM to 7:00 AM. Residents will be given 24 hours' notice prior to beginning work so residents can make arrangements for limited access. If you have any questions throughout the project or require assistance with access, please call the Project Hotline.

### **Will I have continual City sewer and water service to my house?**

This project includes the removal and replacement of the existing City water mains. Replacement of the water mains will require a temporary water main system to be installed to provide continued water service to your property. However to perform this work there will be periodic short term water shuts-offs, 2 – 4 hours in length, to your home. You will be given a 24 hour notice for the required water shut-offs. It is not anticipated that the sanitary sewer service to your home will be interrupted.

### **How will my garbage, and recycling services be affected during the construction?**

These services will not be disrupted by this project. Both the garbage and recycling will continue their current pickup dates and locations throughout the duration of this project. The City Construction Manager will have ongoing communications regarding the construction schedule with these companies.

### **Will the areas of my yard that are disturbed by construction activity be replaced?**

Areas disturbed during construction will be restored with topsoil, seed and hydromulch. The Contractor will be responsible for establishing the newly seeded areas. All residents will receive notification of the end dates of the Contractor's seeding maintenance period, as well as tips on how to best care for the newly seeded areas.

### **How are landscaping features and law irrigation systems dealt with during construction?**

Homeowners are required to locate and remove items such as invisible pet fences, irrigation lines, landscaping, or any other private features that are located between the sidewalk and the existing concrete curb. Generally, anything within this area will likely be disturbed. If you have questions regarding any private features that may be impacted, contact the Construction Manager by calling the Project Hotline.

### **How will the school bus pick up my children?**

The City is anticipating that the bus pickup locations will remain the same. The City will coordinate with the School and Bus Company if an alternate location is needed during construction. If a new location is required, the affected residents will be notified in advance.
