2019 Vine Street Improvements Project Weekly Project Update

June 28, 2019

The City of Hudson is currently reconstructing Vine Street from 9th Street to Wisconsin Street. The duration of the project is May 6, 2019 to the substantial completion date of September 30, 2019. Construction includes pavement and curb removals, sanitary replacement, water main replacement, minor storm sewer, curb replacement, pedestrian ramps, asphalt replacement, median reconfiguration and restoration.

Work Completed for the Week of June 17 and 24

A-1 Excavating connected their water main to the City's system and finished all utility work along Vine Street. The grading and restoration crew from A-1 Excavating arrived onsite and began subcutting the road for the new gravel. Gravel has been installed from 9th Street to 10th Street and the new road section has been cut out up just past 11th Street.

Work Scheduled for the Week of July 1

A-1 Excavating is planning to continue to build the new road up to gravel grade from 11th Street to Twelve Oaks Lane on Monday and Tuesday. The rest of the week they will remove pavement and curb up to Wisconsin Street. The following week the crew will be focusing on the Vine Street/Wisconsin Street intersection.

Traffic Impacts

Vine Street will be shut down throughout the duration of construction. All access to homes off Vine Street will always be available from 7:00pm to 7:00am, except during concrete curb and driveway curing time. The current schedule is to continuing working east up Vine Street and are hoping to be complete by the end of August. Whenever the crews are not working in front of your property, access will still be available to your driveways. Please refer to the notices that will be delivered or call the City Project Manager for any access questions or concerns.

Other Notes

If you have any additional questions or concerns please contact the project hotline at **(715) 531-2786**. To ensure updates you can view the Vine Street Construction Information tab on the City of Hudson's website or subscribe to the weekly updates on under Notification Sign-Up and then Front Page News (under News Flash).
